

# Centrale Nantes Supercomputing @ ICI

Welcome to the ICI **Centrale Nantes Supercomputing** (CNSc) User Support Wiki Page where you can find tutorials, guidelines and on-help from our high-level support team supports the users in case of problems on our systems, e.g. user account, security, porting of the application, parallelisation and performance issues as well as usage of the HPC system. User support is offered by competent experts. The center operates the latest computers and helps to ensure that the researchers can focus on their scientific results. CNSc hosts a pool of high performance computers in a cluster so called [LIGER](#).

**Can't find the information you need below? Need advice from a real person? We're here to help.**

Support is available to respond to your emails and phone calls from **8:30am to 4:30pm, Monday till Friday**, exclusive of holidays. Emails received outside of regular support hours will be addressed the next business day.

Write to [cns-help@ec-nantes.fr](mailto:cns-help@ec-nantes.fr) or Call **+33 2 4037 1529** (only for emergency) or +33 2 4037 1578

## Documentation production in progress

Documentations are not all complete yet. Please always refresh pages before reading. However, if you have any comments or questions, please feel free to [discuss](#).
